

COMPLETE MOBILE AND GADGET REPAIR TRAINING

Certificate Title:

Mobile & Gadget Repair Technician

Concentration in Cell Phone and Tablet PC Repair

Total Hours: 35 Training Hours/5day

Prerequisites: None

This course is built for beginner

Course Description

This course teaches an employable skill but also exposes trainees to the great benefits of entrepreneurship. Trainees learn all the necessities to be successful in the Cell Phone and Gadget Repair Industry. Each trainee will touch each phone & tablet as the course is 100% hands on. Trainees keep the book used during class and a star--up pack of tools. All equipment, phones and supplies are provided for training. Trainees do not need to bring anything to class. This Course also includes the Business Course. Trainees will be able to open a business directly after class and run it successfully.
